## SKILLS

---

Languages: C++, Java, C, Python  
Frameworks: OOP Frameworks & Design Principles, Agile / Scrum, Data Structures & Algorithms  
Tools/Platforms: MySQL, Git, GitHub, VS Code, JupyterLab  
Soft Skills: Decision Making, Time Management, Critical Thinking, Adaptability

## PROJECTS

---

Netflix watch history | [🔗](#) January 2025 - February 2025

- Delivered a user-friendly system that mimics real-world streaming platforms like Netflix.
- Implemented stack-based mechanisms track and reverse user actions, enhancing application control and usability.
- Ensured seamless long-term preservation of watch history through robust file serialization, delivering a consistent user experience across sessions.
- Tech:** C++, OOP, Stack, MySQL, File I/O

Predictive Analytics for Business Growth | [🔗](#) September 2024 - October 2024

- Handled missing values, outliers, and categorical variables to enhance overall data quality and model readiness.
- Visualized trends and uncovered hidden patterns using Seaborn and Matplotlib to support data-driven decisions.
- Built and deployed regression and classification models with Scikit-learn to predict sales performance and customer churn.
- Tech:** MySQL, File Serialization, Confusion Matrix

Data-Driven Sales Insights Dashboard Using Excel & Pivot Tables | [🔗](#) August 2024 - September 2024

- To create an interactive Excel dashboard that converts raw business data into clear, actionable insights for faster decision-making.
- Enabled stakeholders to track KPIs like revenue, profit, sales trends and product performance single user-friendly dashboard.
- Helped identify regional and monthly growth patterns, making it easier to understand business performance and plan strategies effectively.
- Tech:** Pivot Tables, Advanced Excel Formulas (SUMIF, VLOOKUP, IF)

## SUMMER TRAINING

---

Code Quest: DSA Summer Bootcamp from Basics To brilliance | [🔗](#) June 2025 - July 2025

- Learned core data structures and algorithms step-by-step, starting from basics and progressing to complex problem-solving techniques.
- Prepared for top tech interviews with mock tests, resume tips, and competitive programming strategies.
- Strengthened understanding of time and space complexity, recursion, and dynamic programming through hands-on implementation and peer collaboration.

## CERTIFICATION

---

Java Programming – NeoColab | [🔗](#) January 2025 - May 2025  
Data Structures and Algorithms – NeoColab | [🔗](#) August 2024 - December 2024

## ACHIEVEMENTS

---

50-Day Streak Badge on LeetCode with 100+ DSA problems solved. October 2025 - November 2025  
Participated in 5+ hackathons, achieving finalist position twice. July 2024 - November 2025

## EDUCATION

---

|                                                                       |                         |
|-----------------------------------------------------------------------|-------------------------|
| Lovely Professional University                                        | Phagwara, Punjab        |
| Bachelor of Technology - Computer Science and Engineering ; CGPA: 6.7 | August 2023 - Present   |
| Minerva Public School                                                 | Baghpat, Uttar Pradesh  |
| Intermediate; Percentage: 78%                                         | April 2021 - March 2022 |
| Minerva Public School                                                 | Baghpat, Uttar Pradesh  |
| Matriculation; Percentage: 72%                                        | April 2019 - March 2020 |
